Fire Protection System(Valve Item)

Gate Valve

Isolates water flow within pipeline systems

Non-Return Valve

Prevents reverse flow in fire pipelines

Butterfly Valve

Compact valve for flow isolation control

Y-Strainer

Filters debris from water flow systems

Pressure Relief Valve

Releases excess pressure for system safety

Flow Switch

Detects water movement within fire systems

Pressure Switch

Activates alarms based on pressure changes

Foot Valve

A specialized one-way check valve

Fire Protection System

Pillar Hydrant

Outdoor hydrant for firefighting water access

Oblique Landing Valve

Hydrant valve for hose connection control

Angle Hose Valve

Controls water discharge through fire hoses

Jacket Lay-flat Fire Hose

Flexible high-pressure firefighting water delivery hose

Hydrant Box

Protective cabinet for hydrant equipment storage

Fire Hose Reel

Quick-response hose reel for firefighting use

Breeching Inlet

Fire brigade water connection inlet point

Jet Spray Nozzle

Directs concentrated water stream for firefighting

Fire Protection System(Valve Item)

Pressure Gauge

Displays system pressure for monitoring purposes

Air Vent Valve

Removes trapped air from pipelines automatically

Ball Valve

Quick shut-off valve for pipelines

Flexible Joint

Absorbs vibration and pipeline movement stress

Fire Hose Rack Nipple

Connector fitting for hose rack systems

Fog Nozzle

Produces fine mist for fire suppression

Adaptor

Connects incompatible firefighting hose fittings securely

Hose Rack

Organized storage rack for firefighting hoses

Fire Protection System(Valve Item)

Sprinkler

Automatic water discharge fire suppression device

Water Alarm Check Valve

Prevents backflow while activating fire alarms

Zone Control Valve Set

Controls sprinkler water flow by zones

Test & Drain Valve

Enables sprinkler system testing and drainage

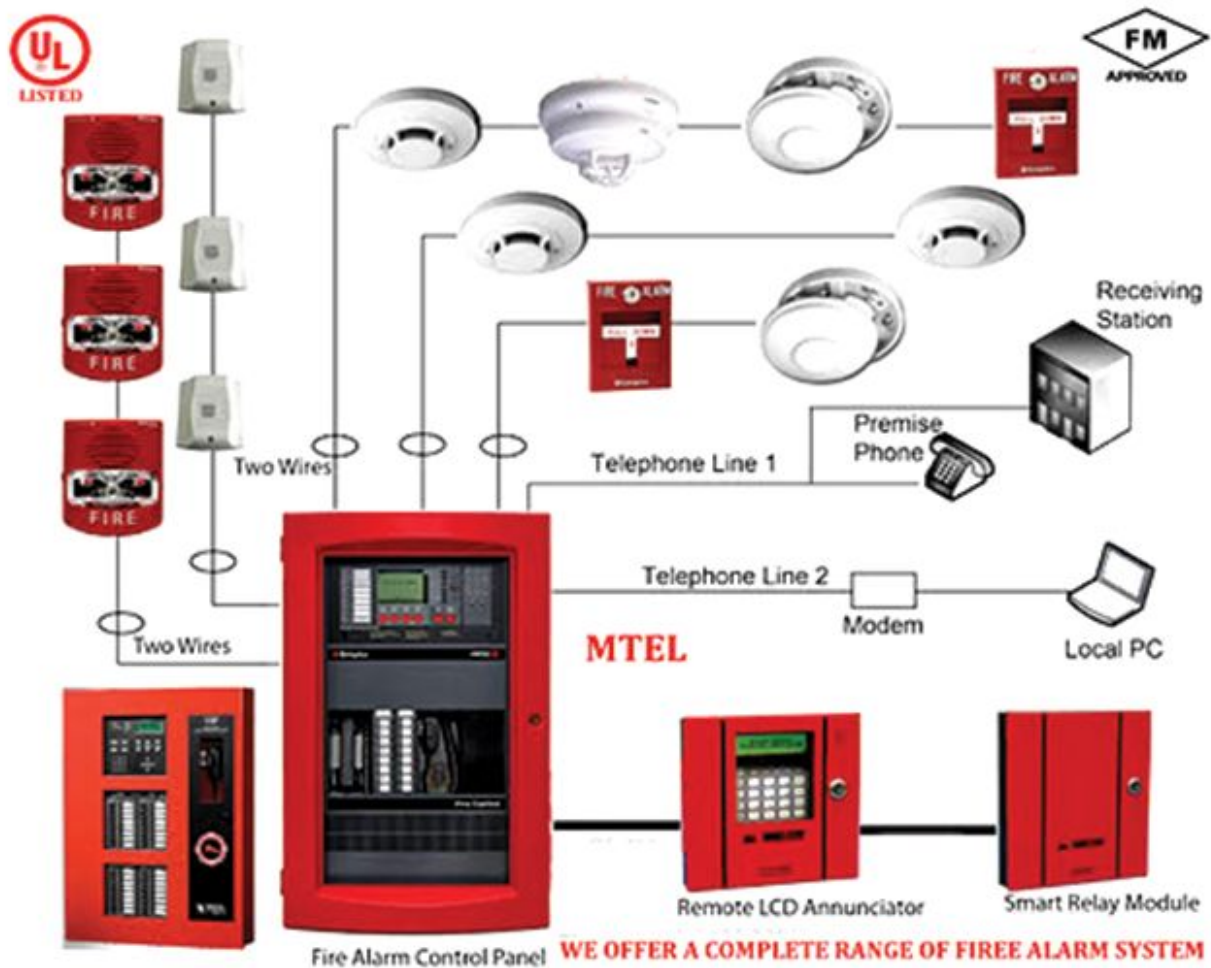

Fire Extinguisher system

ABC Dry type
CO2
Wet chemical
Foam type
Water spray

Fire Detection System

Fire Fighting Pump System

Jockey Pump

Electric Pump

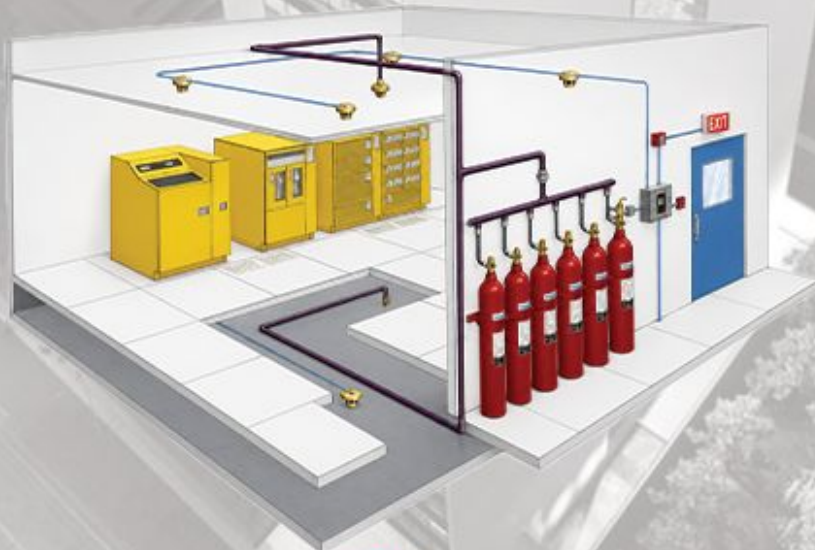

Diesel Pump

Control Panel

Gas Suppression Systems

Fire Door & Accessories

Fire Door

Fire-resistant door for emergency containment

Double Leaf Fire Door

Wide opening dual-shutter fire-rated door

MS Pipe

Mspipe imported/ local/ 40 schedule/20 schedule

Welded Fittings

Secure pipe connection fittings for systems

Emergency light

Provides backup illumination during outages and emergencies.

Exit sign

Clearly identifies safe evacuation routes and exits.

Fire blanket

Smothers small fires and protects escaping persons.

Pa system speaker

Broadcasts emergency instructions.
